User Guide

CART DROPDOWN

The Cart Dropdown module lets you configure your cart dropdown.
Below you will find all the information you need to understand and use this module.

Note: this module is not compatible with a theme that already has a cart dropdown.

<u>Contents:</u>
1. Configuration tab
   a. Creation
   b. Real-time preview
2. Help tab

1. CONFIGURATION TAB
   a. Creation

In this tab, you will be able to configure and customize how your cart dropdown is displayed.

- Start by choosing to enable or disable your cart dropdown.

Activate the Cart Dropdown   YES   NO

- Then, you can customize your card dropdown with the color you want. This color affects the shopping cart button, the price, and the action buttons that redirect to the cart or purchase funnel.

Choose the primary color   #FF0080

- You can also choose to match your branding, by keeping the prices in your theme's default color.

Keep default theme color for the price   YES   NO

- You may also decide whether or not to enable all of your settings on mobile.

- Then, you can choose to show two buttons on your cart dropdown.

First, choose whether to show the "View my cart" button that, when clicked, lets your customers access the full summary of their order.

Second, choose whether to show to "Order" button that, when clicked, lets your customers go directly to the order and, initially, to the purchase funnel, without stopping at the order summary screen.

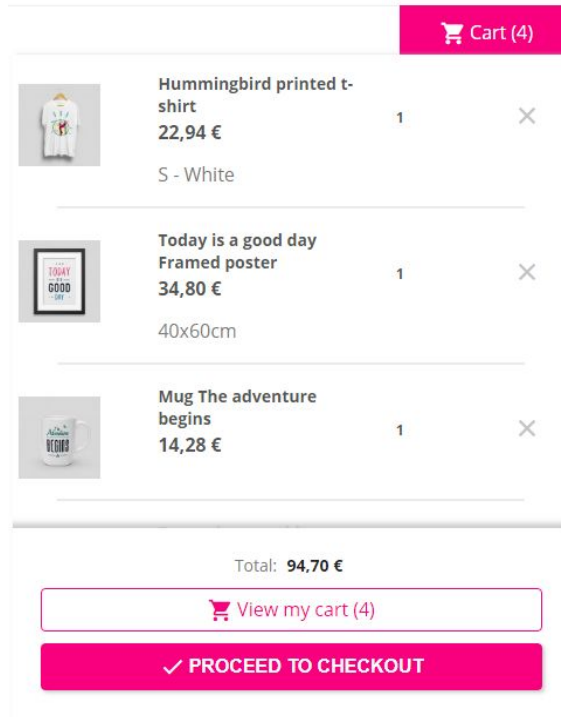

Finally, you can choose to display one or both of the buttons in your cart dropdown.

Total: **94,70 €**
